Nylon Cut Pile Series

FLORIDA

Benefits of Nylon Carpets

Nylon is a great carpet fiber with terrific product benefits. It is strong, durable, static-free, easy to maintain and dye, and colorfast. It has very versatile styling possibilities, maintains fiber height, and resists soiling or staining.

The elasticity, strength and durability of Nylon make it excellent for areas with very high foot traffic. Nylon can be bent, crushed and even stretched to over 33% of its original length for long intervals. And the good thing is that it will go back to its original shape.

Nylon type of material consists of strong nylon carpet fibers that hold up against constant wear and tear, easily bounces back to its original shape after being cleaned and is known for maintaining its original appearance. Though it is not the most stain resistant, it is known for stains to be easily removed.

Technical Specification

Fiber	- 100% Nylon
Construction	- Cut pile
Pile Height	- 8MM
Pile weight	- 850 GSM
Total weight	- 2100 GSM
Standard Roll width	- 1.83 MTR (6 FT)
Standard Roll length	- 25 MTR
Backing	- Action backing

Sound
insulation

Heat
insulation

Anti
static

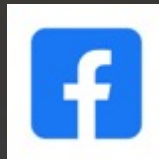

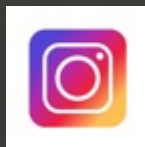

Water
proof

Wear
proof

Anti
flammable
