GEOMETRY SERIES — CARPET TILES

A modern collection designed for spaces that demand style, structure, and durability, inspired by clean lines, balanced symmetry, and contemporary architecture, our Geometry Pattern tiles bring depth and character to any interior.

Key Highlights

- **Bold geomstric motifs** that elevate the visual appeal
- **Premium tufted construction** for long-lasting performance
- **Easy installation & replacement** with modular tile format
- Ideal for offices, commercial areas, hospitality & retail spaces
- Available in **multiple shades**, perfectly harmonized for mix-and-match layouts.

Why Choose Our Geometry Tiles?

They add rhythm, direction, and a modern identity to flooring—turning every floor into a design statement.

**ECO-FRIENDLY
COMPOSITION**

VAE Backing

VAE (Vinyl Acetate Ethylene) backing is a new-generation, high-performance carpet tile backing developed for superior durability, comfort, and environmental safety. This presentation highlights its features and advantages compared to traditional bitumen backing.

Comparison (VAE & Bitumen Backing)

Feature	VAE Backing	Bitumen Backing
FLEXIBILITY	High	Low
Weight	Light	Heavy
VOC Emissions	Low	Higher
Moisture Resistant	Strong	Moderate
Durability	Excellent	Prone to Cracking
Eco Friendliness	Yes	No
