POLYSTER CUT PILE CARPET

Polyester carpet is a man-made fiber that was introduced in the 1960s. Like nylon, polyester is made of plastic polymers. It's known for its soft feel, vibrant colors, and stain resistance. Polyester carpet is often used in bedrooms, Home cinemas & family rooms where people want a softer feel underfoot. EXCELLENT ACOUSTIC PERFORMANCE.

VENICE

POLYSTER CUT PILE CARPET

Since the carpet is very soft this may leave Footprints that are shading marks left by humans walking across the carpet. They may be noticeable for a few minutes or a few days. Most deep-pile and smooth pile carpets will show footprints That is not related to manufacturing defect.
