ADVANTAGES OF POLYURETHANE- BACKED CARPET

IT IS AFFORDABLE, PROVIDES GOOD MOISTURE PROTECTION AND HAS EXCELLENT EDGE-RAVEL PROTECTION. MOST OF THE TIME POLYURETHANE BACKINGS ARE CUSHIONS SO THEY PROVIDE COMFORT UNDERFOOT

ABSOLUTE

PP Polypropylene carpet tile with Non Woven fabric
&
PE (polyethylene) backing

PE (POLYETHYLENE) BACKING IN CARPETS OFFERS SEVERAL BENEFITS:

MOISTURE RESISTANCE

1 : PE backing acts as a barrier, preventing water and moisture from penetrating the carpet and subfloor.

IMPROVED DURABILITY

2. : PE backing adds strength and stability to the carpet, reducing the risk of tears and punctures.

EASY INSTALLATION

3. : PE backing makes carpet installation simpler, as it provides a smooth surface for adhesives to bond with.

REDUCE CARPET STRETCHING

4. : PE backing helps maintain the carpet's dimensions, minimizing stretching and shrinkage.

ENHANCED SOUND REDUCTION

5.: PE backing can help reduce noise levels by absorbing sound vibrations.

PROTECTION FROM MOLD AND MILDEW

6.: By preventing moisture buildup, PE backing helps create an environment less conducive to mold and mildew growth.
